Teaching Learning to Learn: An Online Institute

Improving Teaching, Learning, and Student Success through the implementation of Process Education.

For institutions or individuals interested in converting from a traditionally-oriented classroom (whether physical or virtual) to one that is learner and learning-centered, this event offers you the opportunity to grow and develop as an educator. Participants actively take part in a learning community that mirrors a Process Education™ classroom. You'll complete each 8-week level of this event with renewed enthusiasm for teaching and a strong motivation to mentor the growth of your students and yourself.

Participant Benefits:

1. Develop an understanding of an instructional design process that supports active learning, critical thinking, and assessment.
2. Learn to value the importance of self-assessment in the growth process and identify ways to make better use of specific assessment tools.
3. Act as researchers, deciding which strategies, tools and techniques might work well (or not) in different learning environments.
4. Observe and learn the professional practices of a process educator from the perspective of a student: analyze, learn, & apply new material.

Cost (per part):

Individual: $395 per participant
Team: $1000 for 3 participants from the same institution
Institution: $250 per person (for 30 participants)

Registration: www.pcrest.com/register

Next Start Date: **January 30, 2017** (Contact us to schedule a Teaching Learning to Learn Institute)

Facilitator: Dr. Daniel Apple is the President of Pacific Crest, an educational consultancy that has provided development workshops for more than 12,000 educators.

Institute Content:

Level 1 (4 modules, 8 learning experiences)	Level 2 (4 modules, 8 learning experiences)
Module 1: Learning Ex 1: Learning to Learn Online Ex 2: Cooperative Learning Practices & Tools **Module 2: Facilitating Learning** Ex 3: Learning Process Methodology Ex 4: Facilitating Learning **Module 3: Assessing Learning** Ex 5: Assessment Methodology Ex 6: Assessment vs. Evaluation **Module 4: Mentoring Learner Development** Ex 7: Mentoring Methodology Ex 8: Learning-to-Learn Camp/Course	**Module 1: Creating a Culture of Success** Pre-Activity: Getting Myself Ready! Ex 9: Transformation of Education Ex 10: Process Education and Performance **Module 2: Advancing Active Learning** Ex 11: Reading for Learning Ex 12: Activity Design **Module 3: Embedding Assessment Practices** Ex 13: Developing Self-Assessment Ex 14: Student Success Toolbox **Module 4: Transforming Learners** Ex 15: Learning Skills Ex 16: Inventory of Teaching & Learning Tools
